Prefectural Inhabitant Tax on Individuals

Tax Payers

There are two types of prefectural inhabitant taxes on individuals: a “per capita levy”, which is a fixed amount levied irrespective of income, and a “per income levy”, which is imposed in proportion to the total net income of the previous year. Depending on your circumstances on January 1 each year, you are required to pay these two prefectural inhabitant taxes if you are one of the following taxpayers.

Taxpayers	Tax paid
Individuals living within the prefecture	Per Capita Levy Amount Per Income Levy Amount
Individuals who have an office and/or house and land in the prefecture but do not have an address in the municipality where it is located	Per Capita Levy Amount

The following people are exempt from paying prefectural inhabitant taxes.

People exempt from paying the per capita levy and per income levy	<ul style="list-style-type: none"> People receiving livelihood assistance in accordance with the Public Assistance Act Handicapped persons, minors and widows or widowers whose total net income in the previous year was not more than ¥1,250,000 (the per income levy is taxed separately on retirement income, etc.)
People exempt from paying the per capita levy	<ul style="list-style-type: none"> People whose total net income for the previous year was not more than the amount established by the ordinances of the municipality. (The tax exemption amount varies according to the municipality.)
People exempt from paying the per income levy	<ul style="list-style-type: none"> Taxpayers whose total net income for the previous year is not more than [¥350,000 x (Total number of principal and spouse, and/or other dependents qualified for deduction) + ¥320,000] When the taxpayer has no spouse and/or other dependents qualified for deduction, then if their total net income for the previous year is not more than ¥350,000

Tax Amount

● Per Capita Levy

¥1,800 Annually

※ Rise in the per capita levy tax rate

Note 1 From fiscal 2014 to 2023, the per capita levy tax rate will be temporarily raised by ¥500 (on the annual amount of ¥1000), and the extra tax revenue collected will be used to cover expenses for the government’s disaster prevention measures. This rise is based on the laws related to the provisional exception on local government taxes to secure sufficient funds for disaster prevention measures implemented by local public authorities to aid in recovery from the Great East Japan Earthquake.

Note 2 From fiscal 2016 to 2019 (4 years in total), the per capita levy tax rate will be temporarily raised by ¥300 to help urgently and intensively fund new forest conservation measures.

● **Per Income Levy** This prefectural inhabitant tax on individuals is calculated based on the taxpayer's net income of the previous year.

$$\underbrace{(\text{Income of previous year} - \text{income tax deduction})}_{\text{Taxable income}} \times \text{Tax rate} - \text{Adjustment deduction} - \text{Tax credit} = \text{Per income levy amount}$$

● **Tax Rate** 4%

※ Revision of the per income levy tax rate (on prefectural inhabitant tax on individuals from fiscal 2018 onwards)

In accordance with revision of the tax system in fiscal 2017, from fiscal 2018 onwards the per income levy tax rate for inhabitant tax on individuals with an address in the stipulated city will be as follows: prefectural inhabitant tax rate of 2% (currently 4%) and municipal inhabitant tax rate of 8% (currently 6%).

The ratio of the tax rate and tax credit (tax credit for donations) for separate taxation on individuals will also be a prefectural inhabitant tax rate of 2% and a municipal inhabitant tax rate of 8%.

■ Procedures for Tax Payment

● Filing a return

In principle, people with an address in the prefecture and municipality must file a tax return (same form as for the municipal inhabitant tax) in the municipality of their address by March 15.

People who have already filed an income tax return and salaried workers only do not need to separately file an inhabitant tax return. However, if people who have filed an income tax return select a different taxation method for their income earned from listed share dividends and the transfer of special stocks, they must also separately file a prefectural and municipal inhabitant tax return.

● Tax Payment

You will pay the prefectural and municipal inhabitant tax in four instalments (usually June, August, October and January) throughout the year, based on the amount stated in the tax notice (statement of payment) sent by your municipality.

※ The payment periods may vary according to the ordinances of each municipality.

Salaried workers will have the payments automatically deducted from their salaries as a special tax collection (note) each month, from June to the following May.

※ Special tax collection of inhabitant tax on individuals

The special collection of inhabitant tax on individuals (local taxes comprising the prefectural and municipal inhabitant tax on individuals) refers to a system whereby the business owner (payer of salary) deducts the employee's (taxpayer's) inhabitant tax on individuals from his/her monthly salary and pays the tax to the municipality the employee lives in on behalf of the employee. This is similar to the income tax withheld at source collection method.

In principle, the business owner (payer of salary), regardless of whether it is a corporation or an individual, is required to collect the inhabitant tax on individuals from all employees as the party responsible for the special tax collection system. (Local Tax Law Article 321-4)

FAQ on (Prefectural and Municipal) Inhabitant Tax on Individuals

Q : What is the "special tax collection" for inhabitant tax on individuals?

A : This system deducts the (prefectural and municipal) inhabitant tax on individuals from a salaried worker's monthly pay, and pays it to the municipality the worker lives and pays taxes in.

Q : Starting from fiscal 2018, the prefecture and its municipalities will exhaustively start to collect inhabitant tax using the special tax collection system. So far it's been fine not to use this system, so what will change from here on?

A : According to the regulations of the Local Tax Law, businesses that withhold income tax at the source are stipulated as special tax collectors of inhabitant tax on individuals. So it's not that the laws have been revised, rather it means these businesses will now be required to carry out their original function of being special tax collectors. So far, some businesses haven't been collecting the inhabitant tax on individuals as required.

- ◆ Please inquire with the inhabitant tax on individuals section of your municipality for further information on the specific procedures of the special tax collection system.

Excessive taxation of prefectural inhabitant tax on corporations (per capita levy)

Osaka prefecture applies excessive taxation on prefectural inhabitant tax on corporations (per capita levy) to facilitate the growth of Osaka's economy, by promoting new industries and providing a safety net to support existing small-to-mid-sized companies.

Excessive taxation of prefectural inhabitant tax on corporations (corporation levy) and business tax on corporations

Osaka prefecture applies excessive taxation on prefectural inhabitant tax on corporations (corporation levy) and business tax on corporations, taking into account the tax burden on certain corporations and to meet the fiscal requirements of key metropolitan infrastructure (road network, public transport system, etc.) underpinning corporate economic activities.

Procedures for Tax Payment

Corporations must file a return at the relevant Osaka prefectural tax office by the next submission deadline.

Types of returns	Due date for filing and payment
1 Interim return (For corporations with a business accounting period of more than six months and that are required to file an interim return for corporation tax)	Within two months of the day that is six months after the business accounting period started
2 Final return	Within two months of the end of the business accounting period

Business Tax on Corporations

Tax Payers

Corporations that have or own offices or business establishments in the prefecture, for the purpose of conducting business.

Includes public-interest corporations (chamber of commerce and industry, etc.) and non-juridical associations/foundations (youth organizations, parents and teachers association, prefectural associations, etc.) engaging in profit-making business.

Tax Amount

- Corporations with a standard taxable income $\text{Income} \times \text{Tax rate} = \text{Tax amount}$
- Corporations engaging in gas and electricity supply, and/or insurance business. $\text{Revenue} \times \text{Tax rate} = \text{Tax amount}$
- Added value amount (Note 1), Amount of capital, etc. (Note 2) and/or corporations with a standard taxable income (Pro forma standard taxation) $\text{Value added amount} \times \text{Tax rate} + \frac{\text{Amount of capital, etc.}}{\text{Tax rate}} + \text{Income} \times \text{Tax rate} = \text{Tax amount}$

(Note 1) Value added amount is the profit (loss) in a single fiscal year added to the amount of distributed earnings (remuneration amount + net interest paid + net rent paid).

(Note 2) Amount of capital, etc., is the amount stipulated in item 16, Article 2 of the Corporation Tax Law. For consolidated corporations, it is the amount stipulated in item 17-2, Article 2 of the Corporation Tax Law. (For a business accounting year that starts on or after April 1, 2015, it is the higher amount of either the [Amount of capital, etc. (amount of free capital increase or decrease added or subtracted to the aforementioned amount)] and [Total of capital and capital reserves, or amount of investment capital])

For mutual corporations stipulated in the Insurance Business Law, it is the amount calculated as net assets according to Article 6-25 of the Order for Enforcement of the Local Tax Act.

- (Note 1) Special corporations include cooperatives, credit unions, medical corporations, etc. Ordinary corporations are those that are not special corporations, public-interest corporations, etc., or associations or foundations without juridical personality, etc.
- (Note 2) Corporations subject to pro forma standard taxation are ordinary corporations with capital and/or investment capital over ¥100,000,000 at the end of the business accounting period that started on or after April 1, 2004 (excluding deemed taxable corporation, investment corporation, specific purpose corporation, general incorporated association and general incorporated foundation), and which are engaging in taxable business activities (excluding those supplying electricity and/or gas, and the insurance business, which are taxed on revenue).
- (Note 3) Corporations not-entitled to reduced tax rate are those with capital of ¥10,000,000, and that have or own offices or business establishments in three or more prefectures. Corporations entitled to reduced tax rate are those other than corporations not-entitled to reduced tax rate.
- (Note 4) Corporations subject to differential taxation are those that meet the conditions outlined in the table below.

Corporations with a standard taxable income	Corporations with capital of ¥100,000,000 or less (including special corporations, public-interest corporations, etc., or associations or foundations without juridical personality) and with total income of ¥50,000,000 or less.
Corporations taxed on revenue	Corporations with capital of ¥100,000,000 or less, and with total revenue of ¥400,000,000 or less.

(Note 5) Although business tax is not applied in Osaka prefecture, it is used to calculate the standard corporation per income levy for the special local corporation tax.

■ Procedures for Tax Payment

Corporations must file a return at the relevant Osaka prefectural tax office by the same submission deadline as that for prefectural inhabitant tax on corporations (refer to page 6).

Mine Lot Tax

■ Tax Payers

Those who have a mining right (right for exploratory drilling and digging) in the mine located within the prefecture.

■ Tax Amount

Category		Tax rate

③ Mine lot for petrol/combustible natural gas		2/3 of the above tax rate for category ①

■ Procedures for Tax Payment

The mine lot tax is to be paid in May in accordance with the tax notice (statement of payment) sent from the Naniwa Kita Osaka Prefectural Tax Office.

Automobiles and Taxes

Motor Vehicle Tax

■ Tax Payers

Owners of a motor vehicle registered in the prefecture as its principal place of usage.

In the sale and purchase of a motor vehicle, when the seller reserves the proprietary right of a vehicle, for instance due to installment sales of the vehicle, the motor vehicle tax is levied on the purchaser, who for purposes of this tax is considered to have acquired the vehicle.

When the vehicle registration is transferred, the motor vehicle tax is levied on the former owner for that fiscal year, and is then levied on the new owner from the next fiscal year onwards.

A light motor vehicle tax (municipal tax) is levied on owners of light motor vehicles, etc.

■ Tax Amount

The tax rate (annual amount) is determined according to the type of vehicle, usage, and total emissions, etc.

For newly registered vehicles or deregistered (disposed) vehicles, the tax is levied or reduced by monthly calculation.

● Taxable amount based on monthly calculation

$$\text{Annual tax amount} \times \frac{\text{Number of months from the month after registration until March}}{12} = \text{Monthly tax amount}$$

(Fraction amounts under 100 yen are rounded down)

● Refund based on monthly calculation

The amount remaining after subtracting the above taxable amount based on monthly calculation from the annual tax amount.

■ Greening of Motor Vehicle Tax

Under the system introduced in fiscal 2002, the motor vehicle tax varies according to the environmentally-friendly level of the vehicle.

● Low-pollution vehicles

Newly registered vehicles in the table below will receive reduction in the motor vehicle tax in the fiscal year after the new registration. The normal tax rate will be levied in all other fiscal years after the fiscal year with the reduced rate. (The reduced motor vehicle tax rate applies only for one fiscal year.)

● Tax rate 【Passenger vehicles】 (Unit: Yen)

Type of motor vehicles	Tax rate (Annual amount)	
	Business	Private

※ Electric cars, natural gas cars that are compliant with certain emissions gas regulations, plug-in hybrid vehicles, clean diesel passenger vehicles that are compliant with certain emissions gas regulations are subject to generally 75% reduction in the motor vehicle tax in the fiscal year following the new registration.

● High-pollution vehicles

Until fiscal 2016, diesel vehicles that have been registered for over 11 years and gasoline vehicles (including LPG vehicles) that have been registered for over 13 years will be taxed at generally 15% higher motor vehicle tax rate (10% for buses and trucks other than for use by general passengers).

Excludes electric/natural gas/methanol vehicles, hybrid vehicles (vehicles that are powered by gasoline), general passenger buses, and towed vehicles.

From fiscal 2017, the vehicles in the table on the right are subject to heavier taxation. Please check your vehicle inspection certificate for the initial registration.

Vehicles	Initial registration
Diesel vehicles	Before March 31, 2006
Gasoline / LPG vehicles	Before March 31, 2004

■ Procedures for Tax Payment

● Filing a return

New owners of a vehicle, and those who have transferred the registration or disposed of a vehicle, must file a motor vehicle tax return at the automobile tax office.

● Tax Payment

Owners of a vehicle as of a date of assessment (April 1 each year) must pay the (annual) tax amount from April to March of the following year listed on the tax notice and statement of payment from the prefecture in May.

For the taxable amount calculated on a monthly basis for newly registered vehicles, the motor vehicle tax return is filed and paid at the time of registering the vehicle.

● Issue of the statement of payment

When your statement of payment for motor vehicle tax is issued over the counter, the registration number and the last four digits of vehicle identification number will be checked.

● A new environmental performance-based levy will be introduced in October 2019!

The introduction of the environmental performance-based levy in the motor vehicle tax and light motor vehicle tax systems, and the abolition of the automobile acquisition tax, have been postponed from April 1, 2017 to October 1, 2019.

The environmental performance-based levy is to be paid by the person who acquires the vehicle at the time of acquisition.

The tax categories for the environmental performance-based levy will be set according to trends in technological development and the impact on the local economy, etc., and will be reviewed during the revision of the tax system in fiscal 2019.

Issue of the Certificate of Motor Vehicle Tax Payment (required for Motor-Vehicle Inspection/Inspection for Structural Changes, etc.)

- Checking your payment of motor vehicle tax can now be done the smarter way – electronically!

Osaka prefecture has set up a system with the Osaka Transport Bureau Branch Office that allows vehicle owners to electronically check the payment of their motor vehicle tax.

Once full payment of the motor vehicle tax has been confirmed electronically, in principle, the vehicle registration can be renewed without needing to show the certificate of motor vehicle tax payment (required for motor-vehicle inspection/inspection for structural changes, etc.) during the vehicle inspection.

- ※ As per usual, non-payment of the motor vehicle tax means your vehicle is not eligible for inspection.
- ※ It usually takes around 10 days after the payment of the motor vehicle tax for the information to reach the Transport Bureau Branch Office. Therefore, owners who will have their vehicle inspected during that 10-day period will need to show the certificate of motor vehicle tax payment issued by the prefecture, as is the standard practice. (This is because the payment information cannot be confirmed electronically at the Transport Bureau Branch Office during that 10-day period.)
- ※ If you will have your vehicle inspected on the day that full payment of the motor vehicle tax has been confirmed, you will need to show the certificate of motor vehicle tax payment; therefore, please confirm payment by the day before the vehicle inspection.

Use the internet to change the mailing address for your motor vehicle tax notice!

You can use the internet to change the mailing address of your motor vehicle tax notice, etc., (府税あらかると [Prefectural Tax A La Carte] on the Osaka Prefectural Tax Homepage) when your address changes such as after moving, etc.

You will need your vehicle registration number and vehicle identification number (last 4 digits) to complete the change of address form, so please check your vehicle inspection certificate for this information. Please note that, to change the mailing address shown on the vehicle inspection certificate, you must register your new mailing address at the Transport Bureau Branch Office.

Automobile Acquisition Tax

■ Tax Payers

Those people who have acquired a motor vehicle, excluding special-purpose vehicles (road rollers, bulldozers, etc.) and two-wheel vehicles. In the sale and purchase of a motor vehicle, when the seller reserves the proprietary right of a vehicle, for instance due to installment sales of the vehicle, the vehicle acquisition tax is levied on the purchaser, who for purposes of this tax is considered to have acquired the vehicle.

■ Tax Amount

$$\text{Automobile acquisition value (standard taxable value)} \times \text{Tax rate} = \text{Tax amount}$$

● Automobile Acquisition Value

Acquisition value refers to the transaction price of a vehicle. It includes the price of added fixtures to vehicle (such as a radio, stereo, car navigation, air conditioner, etc.), but it does not include the price of accessories such as a spare tyre, seat covers, mats, standard tools, etc. If a vehicle is acquired for free or at a cheaper price from a relative, etc., then the acquisition value is the normal transaction price. The automobile acquisition tax does not apply to vehicles with an acquisition price of ¥500,000 or less.

The tax can be reduced if you purchase a vehicle with good emissions gas performance and that meets certain fuel efficiency standards. (Please refer to the (府税あらかると [Prefectural Tax A La Carte] on the Osaka Prefectural Tax Homepage for further details.)

Private cars 3%

■ Procedures for Tax Payment

The automobile acquisition tax return is filed and paid at automobile tax office at the time of registration or notification of use of the vehicles.

※ The automobile acquisition tax will be abolished on September 30, 2019, as a part of revisions to the Local Tax Act.

Gas Oil Delivery Tax

Tax Payers

The following people are required to pay this tax.

1. Those who actually take delivery of gas oil from an exclusive agent or primary distributor
2. Those who sell gas oil that is manufactured by mixing it with other oils
3. Those other than an exclusive agent or primary distributor who consumes or transfers manufactured gas oil
4. Those who sell or consume fuel oil other than gas oil for use in motor vehicles
5. Those other than an exclusive agent or primary distributor who import gas oil ...and so on

Tax Amount

Per kilolitre (Special tax rate) ¥32,100 (Standard tax rate) ¥15,000

In principle, the special tax rate is applied; however, if the average retail price (Note) of gasoline is over ¥160/liter for three consecutive months, the standard tax rate will be applied upon a notice issued by the Minister of Finance.

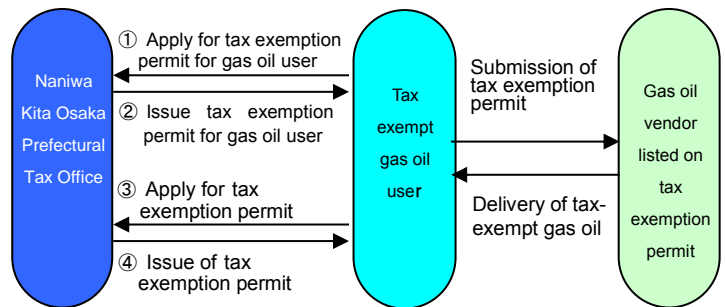

Subsequently, if the average retail price of gasoline is under ¥130/liter for three consecutive months, the special tax rate will be reapplied upon a notice issued by the Minister of Finance.

These regulations are considered in the context of the restoration and recovery status of the Great East Japan Earthquake; accordingly, the regulations will not be applied until the date designated in a separate law.

(Note) The average retail price of gasoline is the amount calculated by dividing the total of the metropolitan (city)-specific retail price (including consumption tax) for vehicle gasoline announced monthly, based on the Retail Price Survey stipulated in Article 1 of the Retail Price Survey Regulations (Ordinance of the Prime Minister's Office No. 6 of 1982) by the number of cities.
Please refer to the Ministry of Internal Affairs and Communications homepage for the results of the Retail Price Survey.

A tax exemption will apply if you have been issued a tax exemption permit, and are using gas oil for the following purposes.

- (1) As a raw material for manufacturing petrochemical products, such as ethylene, etc.
- (2) For powering ships, trains and track vehicle
- (3) For powering agriculture and forestry machinery
- (4) For use in supplying electricity, excavating mines and scaffolding/earthwork and construction, etc.

(Note) The tax exemption measures listed on (2) to (4) above apply until March 31, 2018.

Procedures for Tax Payment

The primary distributor and/or exclusive agent (listed in 1. above) will collect the tax (as special tax collectors) together with the payment of the gas oil upon actual delivery to the purchaser and, after having accumulated such tax over the period of one month, file a return and pay the required tax, by the end of the following month, to the Naniwa Kita Osaka Prefectural Tax Office.

Those listed in 2. to 4. above will accumulate the tax over the period of one month, and then file a return and pay the required tax, by the end of the following month, to the Naniwa Kita Osaka Prefectural Tax Office.

Those listed in 5. above will file a return and pay the required tax, by the time of importing the gas oil, to the Naniwa Kita Osaka Prefectural Tax Office.

Real Estate and Taxes

Real Estate Acquisition Tax

■ Tax Payers

Those who have acquired real estate (land or buildings) by purchase, exchange, gift or new construction, regardless of whether the acquisition was a paid or gratuitous acquisition, or whether or not it was registered, and regardless of the reason of acquisition. For example, tax is still applicable even if ownership transfer registration of land or buildings was omitted, or a newly built house is not registered.

■ Tax Amount

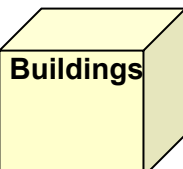

$$\text{Assessed value of acquired real estate (standard taxable value) x Tax rate} = \text{Tax amount}$$

The standard taxable value of acquired real estate is, in principle, assessed and determined based on the registered prices in the municipality's fixed assets tax cadaster at the time of acquisition. Therefore, the value refers to neither the purchase prices of real estate nor construction work expenses, etc.

For housing land or evaluated housing land (Note) acquired on or before March 31, 2018, the standard taxable value is the registered price in the fixed assets tax cadaster x 1/2.

(Note) Evaluated housing land is land other than housing land with a standard taxable value at the time of acquisition that is evaluated based on a comparison with the standard taxable value of housing land similar to that land and its status.

Real estate acquisition tax is not assessed for the following standard taxable values (tax exemption limit).

 Land	Less than ¥100,000	 Buildings	<input type="text" value="New/expanded/renovated"/>
			<input type="text" value="Purchase, exchange, gift, etc."/>
			Less than ¥230,000 per property
			Less than ¥120,000 per property

● Tax rate 4% (Standard tax rate)

Depending on special measures and the date of acquisition, the following tax rates will apply.

Date of acquisition	Type	Buildings		
		Land	Residence	Non-residence
April 1, 2008 to March 31, 2018		3%	3%	4%

● Tax reduction measures

The real estate acquisition tax can be reduced in certain cases, such as for acquired residential buildings and land that meet certain conditions, substitute real estate acquired to replace real estate transferred for public services, and substitute real estate acquired to replace real estate lost in a natural disaster, etc.

■ Procedures for Tax Payment

● Filing a return

Please complete and submit the Real Estate Acquisition Form at your nearest Osaka prefectural tax office within 20 days of acquiring real estate.

The Real Estate Acquisition Form is available at the Osaka prefectural tax office, and it can also be downloaded from the Osaka prefectural tax homepage.

● Tax payment

Please pay the real estate acquisition tax by the due date (payment deadline) stated in the tax notice (statement of payment) sent by the prefecture.

FAQ on the Real Estate Acquisition Tax

Q : I inherited real estate from my parents after they passed away. Is this real estate subject to the real estate acquisition tax?

A : The real estate acquisition tax is not levied on inherited real estate (including comprehensive testamentary gift and/or specific testamentary gift given to the inheritor)

Q : I was gifted real estate from my spouse, but as I am a spouse qualified for deduction, the gift tax (national tax) was not levied. Will the real estate acquisition tax also not be levied on this gifted real estate?

A: The gift tax is not levied in certain cases, such as for residential real estate gifted between spouses that have been married for 20 years or more. However, there is no such a system for the real estate acquisition tax; therefore, it is levied on gifted real estate.

Prefectural Fixed Assets Tax

■ Tax Payers

Corporations, etc., that currently own large depreciable assets (Note 1) with a value over the municipality's taxable limit (Note 2) as of the date of taxation (January 1 each year).

(Note 1) Refers to depreciable assets owned by a single taxpayer with an address in a single municipality, and which have a total standard taxable value for the fixed assets tax that exceeds the fixed taxable value (set amount stipulated by population segments of the municipality).

(Note 2) Refers to the municipality's taxable limit. In principle, this is the fixed taxable value, but in some cases the fixed taxable value may be raised according to the municipality's finances. In that case, the municipality's taxable limit will be the fixed taxable value after any increase.

■ Tax Amount

Amount over the municipality's taxable limit (standard taxable value) x Tax rate = Tax amount

※ The municipal levies tax on the amount up to its taxable limit.

● Tax rate 1.4%

■ Procedures for Tax Payment

● Filing a return

Please submit a tax return to the Osaka prefectural tax office by January 31 each year.

● Tax payment

The prefectural fixed assets tax is paid in four instalments over one year, in April, July, December and February, based on the amount stated in the tax notice (statement of payment) sent by the prefecture.

※ The payment period may vary in special circumstances.

Life and Taxes

Local Government Consumption Tax

■ Tax Payers

Similar to consumption tax, local government consumption tax is imposed on domestic transactions and import transactions. The following are taxable transactions to be paid by those specified in the table on the right.

Domestic transactions: transfer of assets, provision of services, etc. = Transfer levy
Import transactions: receipt of foreign goods, etc. = Goods levy

Category	Taxpayers
Transfer levy	Individual business owners or corporations that transfer taxable assets
Goods levy	Individuals or corporations that receive foreign goods from bonded areas

Local consumption tax is an indirect tax imposed on domestic transactions, such as the provision of services and the sale of products and goods, etc. The tax is added to the price of products, and is ultimately borne by the consumer.

■ Tax Amount

Consumption tax (standard taxable amount) x Tax rate

=

Tax amount

● Tax rate

Applicable period	From April 1, 2014	From October 1, 2019
Local consumption tax rate	1.7% (17/63 of consumption tax)	2.2% (22/78 of consumption tax)
Consumption tax rate	6.3%	7.8%
Total	8%	10%

■ Procedures for Tax Payment

Payment is made along with consumption tax as follows:

For the transfer levy: payment is made to the tax office of jurisdiction in your residential area or location of the store.

For the goods levy: payment is made to the customs office of jurisdiction.

The local government consumption tax is paid by the government to the taxation office or prefecture with a bonded area.

※ Rise in the local consumption tax rate

Japan's population is aging rapidly and its birth rate is falling sharply. Against such a backdrop, in order to provide citizens with reassurance in their daily lives, on April 1 2014 the government raised the local consumption tax rate along with the national consumption tax rate. This is to secure sufficient local finances, along with national funds, to cover social security costs.

The revenue from this rise in the consumption tax rate will cover the four expenses of social security (Note) and for providing other such policies (social welfare, social insurance, and health and hygiene policies).

(Note) These expenses are: pension system, social security benefits for health care and nursing care, and policies to address the declining birth rate,
